PRESS RELEASE SOLEUS

Wines crafted with organically grown grapes

The LIWF Top 100

Organic & Biodynamic Tasting

SOLEUS[®]

by MONTGRAS

SAUVIGNON BLANC 2007

NEW WORLD - Under £10

Building on the success of last year's tasting which focused on rosé wines, we are delighted to turn our attention to another key trend in the wine trade. We are offering a unique opportunity to taste a selection of the world's finest biodynamic and organic wines.

This year's judges are highly experienced wine writers, all of whom have a particular knowledge in the organic and biodynamic fields. The task of selecting this year's top 100 wines was undoubtedly a challenging one, as you will see from the judges' comments in the coming pages.

The Top 100 Tasting features wines at different price points, representing both the old and new world, all selected on the basis of overall quality, consistency, and value for money.

We hope you enjoy the diverse and exciting range of organic and biodynamic wines selected by our panel of experts.
